The E- PLACEMENT MANAGEMENT SYSTEM

Synopsis

The E- PLACEMENT MANAGEMENT SYSTEM is a web based application developed in windows platform for the placement department of the college in order to provide the details of its students in a database for the companies to their process of recruitment provided with a proper login. The system contains all the information about the students. The system stores all the personal information of the students and their technical skills that are required in the CV to be sent to a company.

The system is an online application that can be accessed throughout the organization and outside as well with proper login provided. The system can used for college to manage the student information with regards to placement details.

This project contains all the details of the students that can be viewed by all the users (read only), but can be modified only by the student with an authorized service. The students can update their own information only. Events happening in the college and the achievements of the student's i.e. selected students details can be viewed by all the users. So, our project provides a facility of maintaining the details of the students, and gets the requested list of candidates for the companies who would like to recruit the people based on a given query.
